

DIGITAL TIME SWITCHES (REF. 55037 | 55039)

DESCRIPTION

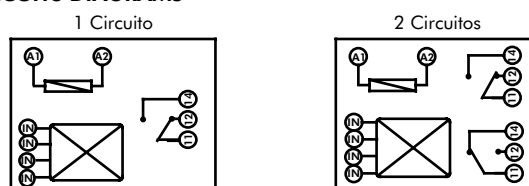

- Enables to control an installation or equipment according to a daily and/ or weekly programming.
- Installation in DIN rail track, in Panelboards.

MAXIMUM RECOMMENDED LOAD

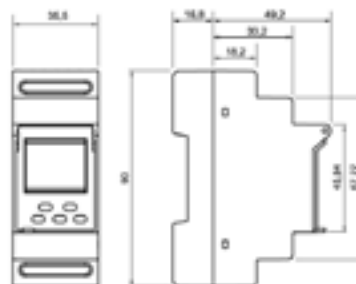

CIRCUITS DIAGRAMS

CHARACTERISTICS

- Voltage: 230V~
- Frequency: 50/60Hz
- 1 Circuito: 1NA + 1NF
- 2 Circuitos: 2NA + 2NF
- Memory capacity: 400
- Programming mode: daily/weekly
- Operation mode: manual, automatic, random, pulse
- Time change summer/winter: automatic, manual
- Operation temperature: -20°C - +60°C
- Cables section: 0,2 - 2,5mm²
- Protection Index: IP20.
- Insulation Class: II
- Power reserve: 3 years - hours/date;
10 years - programming.
